

## COURT STERNLY REBUKES SPECIAL RAILWAY SLEUTHS

Insinuations to the effect that men are being coaxed into the railroad yards by trainmen and freight crews upon the promise that they will be allowed to ride to Denver for \$1 and to other points at proportionately low rates, and then arrested by special agents of the same railroads who happened to see the fellows boarding freights, were made by Magistrate Chambers in police court at Pueblo, Colo., the other day.

"I want to assure you people right now," he said to the railroad detectives who were present, "that I will not be a party to anything of this sort. If employees of the same company which you are working for agree to carry these men on freight trains at reduced rates, which I am well aware they do, then I am not going to assess a heavy penalty because they are found trying to take advantage of these offers. I say that it is not right and this court cannot be used for the carrying out of such plans."

The charges by the police magistrate were occasioned by the trial of Frank Miller. He had been arrested by Special Agent Cox of the Denver & Rio Grande. The charge against him was vagrancy.

Miller took the stand in his own behalf and declared that he had been offered a ride to Denver on a freight train for \$1 and that a trainman had made him the offer. He had intended to purchase a ticket, but the opportunity to go at reduced rates was too tempting and he went down to the yards for the purpose of catching his train. He was about to settle down for a ride when the detective nabbed him and he was sent to the city jail.

"I cannot blame the railroad detectives," declared the court, "for that is their business, but it is also the business of the railroad companies to see that such conditions do not exist and I will not fine a man who has been coaxed into the yards by an employee of the company and then arrested for going there. Released."

## WILL CONFER PALLIUM ON ARCHBISHOP J. B. PITAVAL

Santa Fe will entertain the two highest dignitaries of the Catholic church in America during August, when Cardinal Gibbons and the apostolic delegate, Mgr. Falconio, will visit there to take part in the ceremony of conferring the pallium on Archbishop J. B. Pitaval. In addition to these two, there will be many clergymen throughout the southwest in attendance and the event will be celebrated with the dignity it demands.

The pallium will be conferred on the archbishop in the cathedral of St. Francis on August 18. Twice in recent years the people of Santa Fe have had an opportunity to witness this ceremony, once when Cardinal Gibbons conferred the pallium on Archbishop Chapelle and once when Archbishop Peter Bourgade was the recipient. The ceremony is very solemn and significant and an extraordinary one, in that it occurs only once during the life of an archbishop.

The pallium is a yoke-band of white wool, with pendants at the back and front, and is decorated with crosses. It is blessed by the pope and is conferred by him to form a part of the archbishop's robes, emblematic of his sharing in the authority of the pope. It is further emblematic of the pope's entire satisfaction that the archbishop is successfully fulfilling his duties as head of the church where he is. It is given only to archbishops.

In this case the pallium was sent through Mgr. Schioppa, domestic prelate to the pope, who represented Archbishop Pitaval at the Vatican when the pallium was conferred.

Whether Cardinal Gibbons or Mgr. Falconio will confer the pallium is not yet known. Cardinal Gibbons represents the highest church authority in the United States, but Mgr. Falconio as direct representative of the pope in this country, it is presumed, will act.

The prelate will be seated on a throne, before which the archbishop will present himself, pronouncing the oath of allegiance. The decree of his appointment will then be read, after which the prelate will place upon his shoulders the pallium.

This ceremony will be followed by solemn high mass, during which a sermon will be preached, explaining the meaning of the pallium and the authority it confers.

IT'S ALWAYS BAD.

The Best of Backs Are Bad When They Ache, and E. Las Vegas People Know It.

A bad back is always bad. Bad at night when bedtime comes, Just as bad in the morning.

Ever try Doan's Kidney Pills for it? Know they cure backache—cure every kidney ill?

If you don't, some E. Las Vegas people do. Read a case of it:

J. B. Mackel, 410 Grand avenue, East Las Vegas, N. M., says: "For several years I have strongly recommended Doan's Kidney Pills to persons suffering from kidney complaint in any form. As the result of a cold which settled in my kidneys, my back ached severely and I had pains through my loins. When I did any work that required the use of muscles of my back, the suffering was aggravated. Doan's Kidney Pills, procured at the Center Block Pharmacy, showed their worth by disposing of every symptom of the trouble. I publicly endorsed this remedy at that time and now after a lapse of several years, I can again speak in its praise. Doan's Kidney Pills can never fail to give me relief from kidney disorders."

Life 100,000 Years Ago.

Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown, of Alexander, Mo., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough."
